Please Read Carefully Before Designing

Art Setup Rules and Requirements:

1. Artwork must be contained within the "Print Area", this area is indicated in red.
2. Flow mugs allow for 2 colors total.
3. We recommend logos and text be supplied in vector format.
4. Embed all linked files/artwork within the Illustrator document. If you are unsure how to do this, simply provide each and every design element file separate from the template.
5. Outline text or supply the art department with the font files (.otf or .ttf)
6. Do not warp artwork or text.

Other Facts To Consider:

- Not all art works well when reversed. Please keep in mind that if you request your art with the logo as empty space on a color field, small details can be lost when it goes to print. Any changes made to the art is to achieve a better printing quality.
- Pantone Matching System (PMS) is used for color matching, but all inks are blended by hand so some variances can be expected between batches or orders.
- The manufacturer is not responsible for obtaining copyrights of the designs involved in printing.
- Movement to within 1/25 of an inch can be expected.

What to expect after your placed order?

Within 48 business hours after placing your order, you will receive an email with an official proof from the art department. You must approve that proof before your art goes into production. The official proof will display the artwork to the standards needed for production. If you do not receive this email within 48 business hours, please check your spam folder or give us a call at 866-566-0390 (8am-5pm EST). Please note that your order will be put on hold until the art department has approval.
